

K-LOVE has served my husband and I as residents of the Denver, CO community and now as a part of the Kansas City metro area. We listen to K-LOVE as we drive in our car, and we support K-LOVE moving into other areas where it is not currently broadcasted. I appreciate knowing that I can get into my car and listen to positive and encouraging music from K-LOVE on the radio. I also appreciate knowing that I never have to be worried about the type of programming that K-LOVE promotes. I know that K-LOVE supports wholesome values and has a huge impact on communities all across America. The effect on Kansas City if K-LOVE would be displaced by an LPFM broadcaster providing other programming would be devastating. My car radio is permanently tuned to K-LOVE. However, if K-LOVE were to be displaced by an LPFM broadcaster, I would choose instead to listen to CDs and not the radio. I don't appreciate the programming that many of the other mainstream radio stations broadcast over the radio and I would simply choose not to listen to an LPFM station. In addition, K-LOVE supports community events throughout Kansas City. If you were to remove the K-LOVE station, K-LOVE would not be able to serve as a positive voice to the Kansas City community. The service provided by K-LOVE is absolutely in the public interest because it allows people of all ages (including teenagers who are highly susceptible to outside influences) to listen to positive and encouraging music. I know that K-LOVE has made an eternal difference in the lives of many people, and I would hate the thought that the FCC is willing to displace the public good that K-LOVE brings for a LPFM station. K-LOVE has brought encouragement to my life and to many others. I ask that you consider the eternal consequences of your action if you were to displace K-LOVE. Thank you for your consideration.
